SUMMARY

Frontend Developer with experience building fast, responsive, and user-friendly web apps using React, Next.js, and Tailwind CSS. Skilled in API integration, state management, and testing. I focus on writing clean code, improving performance, and creating smooth user experiences.

EXPERIENCE

Frontend Developer – Bizsecure App

(Aug 2025 - Present)

- Developed a full B2B marketplace frontend with dedicated buyer, seller, and admin modules
- Implemented debounced search and optimized API usage, reducing redundant requests by 40% and improving performance.
- Built responsive, reusable UI components with real-time updates and integrated secure OTP-based login/registration for seamless onboarding.

Prototype / Frontend Developer — Macro Pathways (USA, Remote).

(Sep 2025 – Present)

- Converted Figma UI/UX into a fully responsive landing page using React and Tailwind CSS.
- Implemented requested updates, refined visual components, and contributed to a doctoral research prototype supporting macro social work careers.

PROJECTS

• Netflix-Style App ([Demo](#))

- Built a Netflix-style app with Firebase Auth and TMDB API integration.
- Integrated AI-powered movie/TV recommendations using GPT-3.5.

• Recipe Finder ([Demo](#))

- Achieved 99 Performance and 100 Best Practices on Lighthouse using the THEMEALDB API.
- Implemented 15+ unit/integration tests to improve reliability and stability.

• YouTube Clone ([Demo](#))

- Reduced API calls by 60% via YouTube Data API v3 with Redux caching and debounce search.
- Delivered real-time features with dynamic routing and mock live chat.
